WELCOME

Are you ready to explore the things that really matter to you? Choose Royal Holloway and you'll join a community of forward-thinkers and game-changers, passionate about making a difference in the world. Be inspired to start a path of discovery that will take you through the rest of your life.

We're proud of our groundbreaking history, for opening up university education to those who didn't think they belonged, and asking the difficult questions. We're proud we still do that today. At Royal Holloway we'll help you fit in, and stand out, and are confident you'll leave with more than just a degree.

These pages will give you a glimpse of the amazing things you'll get out of being here. When you've finished reading them, pop online to explore more, chat to our current students and book a date to visit. We'd love to meet you.

[royalholloway.ac.uk/
ug-prospectus](https://royalholloway.ac.uk/ug-prospectus)

"Royal Holloway has helped me grow and given me a new perspective on life. I love being part of a community of learners who spark my curiosity and inspire creativity."

Eliot, BA Music and Theatre

Step on to our Egham campus and you can't fail to be amazed. But it's not just the spectacular Founder's Building, with its towering turrets, that impresses. There's our striking modern library, state-of-the-art academic facilities and fantastic sports provision too, not to mention the woodland waterfalls.

Being campus-based means everything you need is right where you need it. If you fancy popping to the library at an unusual time of day, have to pick up essentials from the shop, desperately need a Starbucks or want a tranquil place to escape, relax and recharge, it's all here. It's safe, it's green, and, most importantly, it will quickly feel like home. See page 34 for a map of the campus.

STUDENT LIFE

"Royal Holloway is a campus university which means everything you need is in one place. This creates a very close community where you come into contact with people from different subjects and different walks of life."

Nathaniel, BSc Computer Science with Integrated Foundation Year

Getting a degree is just one (important!) part of your time here. There's loads more to be getting on with to build up your experiences, make friends for life or just enjoy some well-earned downtime. If sport's your thing, there's plenty on offer, whether you want to play for a team, keep fit in the gym or try out something new. There's also countless clubs and societies covering just about every interest you can think of.

We're also very big on volunteering here, giving you the chance to help out and make a genuine difference for your fellow students and the local community.

STUDYING

“Studying at Royal Holloway has pushed me out of my comfort zone and I’ve grown so much. My year abroad was a defining moment. Studying internationally gave me lots of added context and also widened the world of work opportunities for me.”

Meera, BA Politics Year abroad in Washington DC

Study with us, and you’ll be joining a diverse community of thinkers and doers, where our staff and students become experts and professionals all over the world. Our academic departments cover arts, business, humanities, law and sciences. Head to the coursefinder on our website for full details on all of our courses.

royalholloway.ac.uk/studyinghere

Flexible degrees

Add value to your degree with options to study abroad, volunteer or spend time in work before you graduate. You’ll find more information on your options on our website.

University can be a big change and our Integrated Foundation Year courses offer the tools you need to boost your skills and confidence – saying yes to your ambitions. You’ll gain the knowledge you need to set you up for academic study and you’ll be fully part of university life from day one. Check our department pages (from p7) to see which courses offer a Foundation Year option. If English isn’t your first language, you could also join our International Foundation Year. Entry grades for all our degree courses are shown on the following pages. For BTEC, IB and international equivalencies, see our website.

Research-infused learning

Top 25% of all UK universities for research

(Times Higher Education, Research Excellence Framework (REF), Overall ranking of institutions, 2022)

ACCOUNTING AND FINANCE

Accredited by a range of professional bodies, our School of Business and Management has a fresh and intellectually challenging approach to accounting and finance.

Immerse yourself in the core areas of accounting and finance, getting the theoretical and practical knowledge needed to become a future accountant. Experience hands-on learning, explore future trends, develop your commercial and financial markets awareness, and learn valuable career skills. We encourage placements and internships and you have the option to complete your degree with a Year in Business. Recent students had placements at National Physical Laboratory, Frost Wealth Management and Virgin Media, with graduates securing jobs at a range of accounting firms and in various industries, including PWC, Deloitte, Accenture and London Premier Hotels.

“The course has been an intense but rewarding experience. The opportunities that this degree has opened for me have been amazing! The variety of topics that are available allow you to specialise in areas you’re passionate about.”

Toby, BSc Accounting and Finance

BIOLOGICAL SCIENCES

“I really enjoy the practicals, analysing data from results we’ve obtained and understanding how everything works has helped my problem solving and teamwork skills, while the uncertainty of results makes each experiment challenging.”

Daisy, BSc Medical Biochemistry

Join the forefront of scientific discovery, studying the complexities of the natural world and advances to feed humanity or treat illness to improve quality of life.

We’re a dynamic and friendly department, recognised for high quality research and teaching to address global challenges, from plant molecular and biomedical sciences to ecology and conservation. Our flexible degree structure means you can follow your interests throughout your course and investigate the latest advances with experts. A combination of lab, field and desk-based learning, and an individual project under supervision in your final year, will equip you with invaluable transferable skills to take into the workplace. You can also choose to do a year in industry to gain professional experience.

COURSES

CLASSICS

Classics takes you into a place both strange and familiar. Join us and use the threads of the old to forge new tools for our modern world.

We teach a wide range of Classical subjects – across language, archaeology, history and literature. We want to champion your individuality, your distinct interests and experiences – and with our diverse module choices you can make your own path through the ancient world. You'll learn from subject-leading expert scholars who have a passion for research and teaching. Over the course of your degree, you'll gain a range of skills, and learn to recognise, interpret, and analyse Classical themes in the world today so that you can make a positive impact now.

DRAMA, THEATRE AND DANCE

Engage with an art form as old as civilisation and discover how its lessons can give you the skills you need for your future.

“The best thing about studying Drama is how broad it is, how open it is. Already it’s completely changed my mind on how I see acting, and I think that’s such an exciting thing.”

Jacob, BA Drama with Acting

Our Department of Drama, Theatre and Dance is equipped to teach you core skills that can take you into a career in performance and many other fields of artistic and creative practices. You’ll experience cutting edge teaching in industry standard performance spaces from expert staff who will lead your studies across both theory and practice, with particular strengths in contemporary British theatre, international and intercultural performance.

ENGLISH

What does English mean in the 2020s?
What does it look like? How diverse can it be?
These are all questions we strive to answer.

“I really enjoy the freedom to explore and experiment with storytelling, poetry, playwriting and other creative genres - plus I love being able to produce my own work, inspired by a variety of texts.”

Aminah, BA English and Creative Writing

The Department of English at Royal Holloway is a forward-looking, curious and creative place. Join a friendly community of literature lovers, writers and researchers, where you'll learn from prize winning authors and world-renowned scholars. You'll hone your knowledge of genres, critical concepts and creative skills, with over a thousand years of the English language to explore across a diverse, thought provoking and society-challenging curriculum. You'll see just how far studying English can take you.

GEOGRAPHY

Geography helps shape our future. In your degree, you'll explore key challenges that influence the world around us, from climate change and the environment to social justice and global affairs.

Our inspiring courses are led by staff who are acknowledged experts in their field, addressing social, political and economic aspects of geography and environmental issues that impact us all. You'll explore these important themes first-hand through teaching and fieldwork, learning to understand a world that is undergoing fundamental changes. There's flexibility to stay broad or to specialise in your areas of interest, gaining transferable skills to take into the workplace. You'll enjoy exciting fieldwork in the UK and other locations with a free fieldtrip to Spain in the first year.

HISTORY

Studying History with us allows you to explore thousands of years of our global past, and still keep focus on how we can shape the future.

At Royal Holloway, we see History as a living, current and relevant subject essential for the understanding of our changing world. Our modules not only span broad time periods, but concepts too. We look at themes including empire, war, gender and the family, and explore how they have changed across history. We'll encourage you to choose your own path, exploring topics that are important to you, in places and periods as diverse as Ancient Rome, the Byzantine Empire, Victorian England, modern South Asia, Cold War Russia and colonial Latin America.

”

“I’ve enjoyed engaging discussions about the ways in which history is interpreted; I’m constantly challenged in my studies and supported in thinking of new ideas about history.”

LANGUAGES LITERATURES AND CULTURES

MODERN LANGUAGES

Studying Languages, Literatures and Cultures at Royal Holloway gives you wide ranging and diverse opportunities to dive into art, culture and language.

Studying language at university is different from how you may have studied languages before. In our department, you'll have the opportunity to develop essential skills in cultural awareness as you explore not only language but also international art and culture. With our expertise in teaching and research in language, translation, comparative literature, visual culture, and liberal arts, we offer you the chance to fully immerse yourself in different cultures — their people, history, fashion, and food -including participating in university and work placements across several countries worldwide.

LAW AND CRIMINOLOGY

Our close-knit, innovative and supportive learning environment will support and inspire you as you study your degree relating to law, criminology or sociology.

Courses in our diverse and dynamic department reflect the very latest developments in law, criminology, psychology, sociology and social policy and you'll have opportunities to examine real-life situations as well as look at theory. As you progress, you will gain essential knowledge and skills to advance your future career. Employers are interested in both the skills you develop on your degree as well as those you gain through student life, and former students have an excellent record of career success.

LLB LAW

LLB Law degrees offer a perspective on how the legal system operates and intersects with social, moral, and global issues. Enhance your employability by choosing a Year in Industry course.

COURSES	UCAS code	Years	A-levels
LLB Law	• M100	3	AAB-ABB
LLB Law with Criminology	• ML12	3	AAB-ABB
LLB Law with Sociology	• ML23	3	AAB-ABB
LLB Law with Politics	• MIL2	3	AAB-ABB
LLB Law with International Relations	• MF50	3	AAB-ABB
LLB Law with Modern Languages (French)	MIR1	3	AAB-ABB
LLB Law with Modern Languages (German)	MIR2	3	AAB-ABB
LLB Law with Modern Languages (Italian)	MIR3	3	AAB-ABB
LLB Law with Modern Languages (Spanish)	MIR4	3	AAB-ABB
LLB Law with Philosophy	M1V5	3	AAB-ABB
LLB Law (with Integrated Foundation Year)	M10F	4	CCC-CCD

- Available with an integrated Year in Industry. Please note these course variants have different UCAS codes.

MATHEMATICS

So many aspects of everyday life are based on Mathematics, a widely applicable language and a universal skillset that will set you apart in your future career.

Our compact size creates a friendly and inspiring environment where staff are approachable and students are known as individuals. We want you to enjoy studying maths while developing your skills for a successful future, and whichever degree you choose, our flexible approach enables you to follow your strengths and explore subjects ranging from number theory, statistics and financial maths to algebra and quantum theory. You can also choose to combine maths with another subject. From Python programming to careers fairs, graduate, and employer sessions, you'll have opportunities to develop transferable skills and network with future employers.

COURSES

	UCAS code	Years	A-levels

MEDIA ARTS

Enter a forward-thinking environment that is ahead of the curve and focused on future-proofing the careers of our next-generation creatives.

The way we tell stories is evolving. Join us to explore both the creative and the critical side of storytelling, in all its dynamic forms. We place understanding at the heart of everything we teach you so that you won't just learn the 'how' but also the 'why' of Media Arts. You'll have access to sound and television studios, and media labs equipped with cutting-edge technology. You'll also prepare for your future career, with regular visits from industry professionals and tuition from world-leading experts.

”

“Digital media gives us the creative space to tell stories in a completely different way. By incorporating technology with real-life events, we can make stories more accessible all over the world.”

MUSIC

We are one of the largest university Music departments in the UK, with a fantastic student experience and an enviable reputation for the quality of our research.

Our Department of Music is a creative and energising place to study. We are very well connected, with industry links to the BBC and the Royal Opera House, as well as the opportunity to work with leading musical groups like the London Mozart Players. You'll be tutored by world-leading, globe-spanning experts and have access to beautiful performance spaces and industry-standard recording studios to inspire your musical journey. We're also passionate about opening up the great diversity of musical studies - from exploring music in video games to how sound can be used in exciting ways for film and TV.

COURSES

(The Times and Sunday Times Good University Guide, 2025)

Graduates have gone on to work in the music industry, media, law, publishing and teaching

PHILOSOPHY

Study one of the oldest, fundamental parts of human enquiry in small groups led by staff who are internationally recognised.

Studying philosophy you'll explore the big questions - about truth, value, beauty, existence, knowledge - and reflect about the world and our place in it. You'll be taught in small groups by academics who are recognised authorities in their research areas and have published major books on key philosophical topics. You'll learn to think critically about claims people make and your own beliefs and assumptions. The ability to think logically, interpret complex texts, and argue a point are all skills highly valued by employers.

Philosophy Society trip to Athens, 2024

COURSES

	UCAS code	Years	A-levels
BA Philosophy	V500	3	ABB-BBB

“The department has been incredibly helpful, they're always available for help on assignments, assessments and general advice.

It's been brilliant belonging in a community of people with similar interests as you.”

Hassan, BA Philosophy

Work beyond the narrow confines of Anglo-American or European philosophy

98%

of students say staff are good at explaining things

(National Student Survey, 2024)

PHYSICS

Physics combines experimental techniques, conceptual thinking and mathematical analysis, for a brilliant science training that will challenge and inspire you.

Our degrees provide a very special educational experience: learning with inspiring staff, courses that offer practical science training, smaller class sizes and weekly personal tutorials, all delivered within an inclusive community. Your degree will be enriched by the international quality of our research environment, with access to outstanding facilities and research at the cutting-edge of physics. You'll develop skills in complex data analysis, logical and critical thought, problem solving and effective communication skills; all of which are highly regarded by employers. Most of our students also spend time on industrial and research placement opportunities at companies such as the NHS, Thames Water, and BP or at research centres such as CERN, the world's largest experiment.

COURSES	UCAS code	Years	A-levels
BSc Astrophysics	F511	3	AAB-ABB
MSci Astrophysics	F510	4	AAA-AAB

POLITICS AND INTERNATIONAL RELATIONS

Study at Royal Holloway and use cutting-edge tools to get underneath how power works today.

Our degrees are designed to give you the means to make sense of issues of contemporary significance as well as giving you the skills for a variety of work settings. We're a dynamic, research-led department committed to high-quality research which informs our teaching. Our curriculum includes specialist modules across the discipline and covers traditional areas of British politics, EU institutions, and international political economy, as well as new areas of enquiry such as human security, development politics, migration and the role of new media in politics.

COURSES	UCAS code	Years	A-levels
BA International Relations	LF50	3	ABB-BBB
BA Politics	L200	3	ABB-BBB
BA Politics and International Relations	L290	3	ABB-BBB
BA Politics with Philosophy	L2V5	3	ABB-BBB
BA Politics, International Relations & Modern Languages (French)	LR21	4	ABB-BBB
BA Politics, International Relations & Modern Languages (German)	LR22	4	ABB-BBB
BA Politics, International Relations & Modern Languages (Italian)	LR23	4	ABB-BBB
BA Politics, International Relations & Modern Languages (Spanish)	LR24	4	ABB-BBB
BA Politics and International Relations & Philosophy	LV25	3	ABB-BBB
BA Politics, Philosophy & Economics (PPE)	L0V0	3	ABB-BBB

See our coursefinder for a full range of politics and international relations related degrees.

“My favourite thing about studying politics is how diverse it is. The course is very critical and encourages you to critique what ideas have been dominant and to have your own opinion. The module choices are so broad.”

Lucy, BA Politics and International Relations (also Model UN delegate)

11th

in the UK for Politics

(The Times and Sunday Times Good University Guide, 2025)

Modules on offer include Parliamentary studies and Politics in Action

PSYCHOLOGY

Exploring the most up-to-date and exciting findings in Psychology with leading experts creates an inspiring environment to study this fascinating subject.

Staff in Psychology are as passionate about teaching as they are about making a difference in our world through innovative research that changes lives. You will study in a lively and supportive community at the frontier of psychological knowledge and contribute your own findings to this leading research culture in your final year research project. With access to outstanding campus facilities and some of the best research equipment in the UK, our inspiring degree courses develop a portfolio of transferable skills and prepare you for a rewarding career.

“Studying Psychology provided me with a solid foundation in understanding human behaviour, while the supportive and inspiring academic environment encouraged me to think critically and develop key skills for my career. The blend of theory and practical application has prepared me for future challenges.”

Oliver, BSc Psychology ”

WHERE TO LIVE

“It was really good living in student accommodation on campus when I first came here. I met people from all different courses and we’d have dinner together. It was like a little family.”

Wilise, BSc Psychology

”

**[royalholloway.ac.uk/
accommodation](https://royalholloway.ac.uk/accommodation)**

Choice is key when it comes to our accommodation offer. Will you choose a modern townhouse or opt for a traditional room in our historic Founder’s Building? Are you happy to share a bathroom or is an en-suite essential? Check our website for a full list of options but rest assured that all our halls of residence offer comfort, a ready-made community of fellow students and a range of prices to suit different budgets. All halls are close to where the action is, whether it’s lectures, individual study space, or hanging out with friends. Crucially, we guarantee an offer of accommodation to new undergraduate students who apply by our deadline.

See page 34 to see where you’ll find our halls on campus.

If you choose to travel in daily rather than live on campus, you’ll still get the Royal Holloway experience. You’ll enjoy a range of activities for commuting students, plenty of online resources and can book a room to stay overnight on campus if you ever need it.

EMPLOYABILITY

You'll be encouraged to prepare for your career with employability embedded throughout your degree. Guidance from your academic department is perfectly complemented with peer-to-peer-coaching and support by employability experts. Our careers service runs inspiring events and offers practical support on writing applications, preparing for interviews, and finding placements and part-time jobs. You'll also have the chance to network with employers and graduates who've gone on to great things.

Skills for choice and opportunity

You'll need to stand out from the crowd when you graduate so you can truly sell yourself in job applications and interviews. There are so many experiences to be had at Royal Holloway. You could lead a club or society, take on a volunteering role or become a student ambassador, to name a few. We'll help you translate these experiences clearly into the skills we know employers are looking for, and make sure you're confident writing and talking about them. We also love helping budding entrepreneurs see their ideas become reality and our Student Entrepreneurship Service will give you tips on financial planning, pitching to investors and business strategy, giving your CV another boost.

[royalholloway.ac.uk/
your-future-career](http://royalholloway.ac.uk/your-future-career)

SUPPORTING YOU

You'll join a diverse, supportive and close-knit community, where staff and students from all over the world work together to create an environment where you'll thrive academically, socially and mentally.

Academic success

You'll have a personal tutor in your department to help you settle in to academic life, and our academic skills team is there to help develop your writing, communication, maths and statistics skills.

Health and wellbeing

Taking care of your physical and mental health will help you achieve your goals. Our package of support, including counselling, an on-campus NHS-run GP surgery and teams dedicated to all aspects of wellbeing, will keep you on track throughout your university journey.

Disability and neurodiversity

You'll be offered support to help you succeed, whatever your individual needs. We can help with exam arrangements, additional academic and library support, diagnostic assessments and other reasonable adjustments.

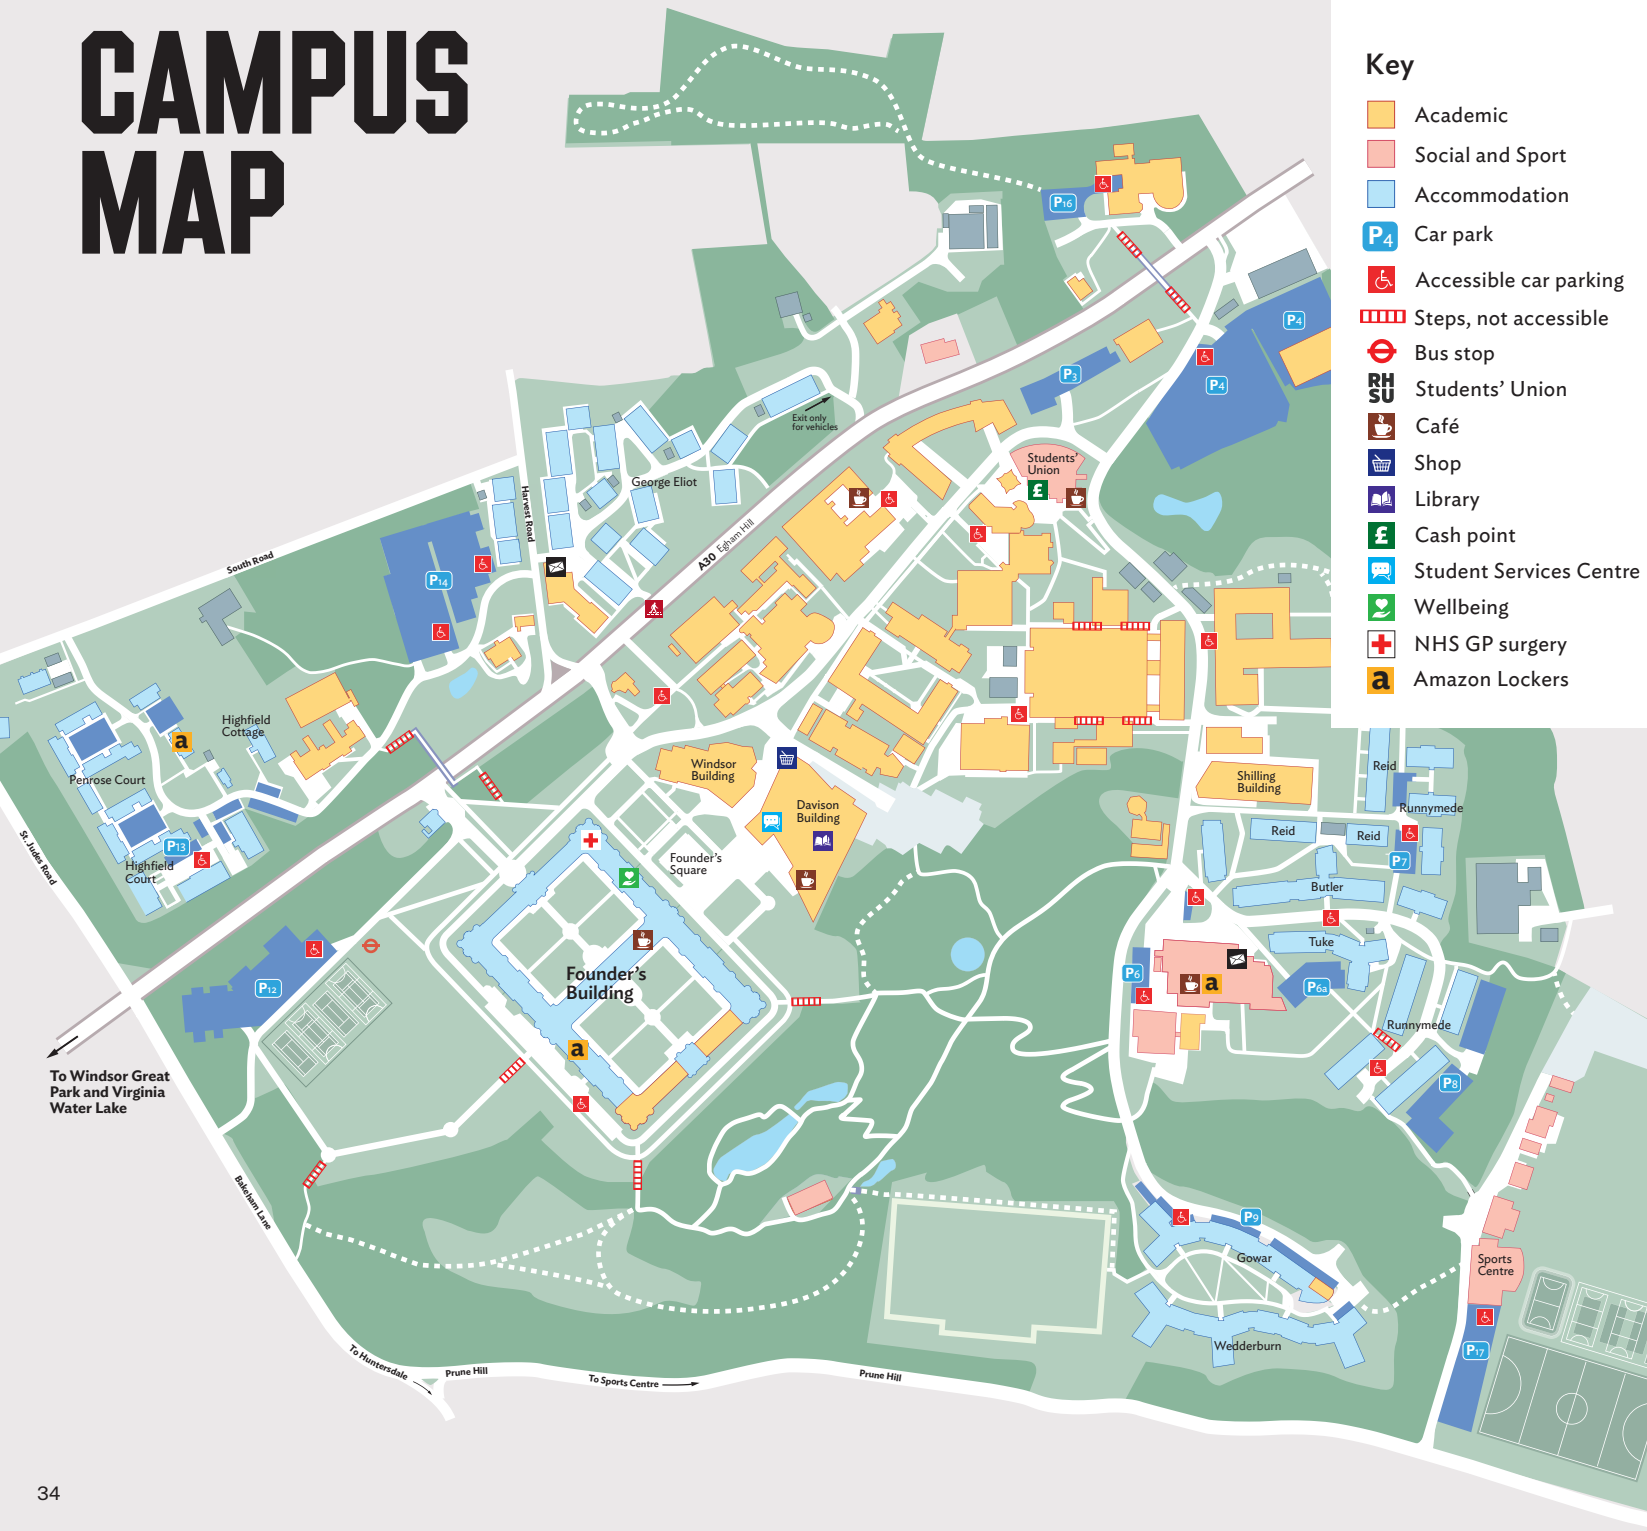

”

“I didn't think university could be such a welcoming, diverse environment but there is a place for me here. I want people to feel seen through me – representing as Filipino, queer and neurodivergent – and be the representation I wish I saw growing up. There is no one 'look' of a Royal Holloway student.”

Jamie, BSc Psychology

royalholloway.ac.uk/wellbeing

CAMPUS MAP

Our campus is a 20-minute walk from Egham station or you can use the regular University bus service.

Surrounding towns such as Egham, Staines and Windsor offer entertainment, nightlife, restaurants and shopping. There are beautiful places to visit on our doorstep, including Windsor Great Park and areas around the River Thames.

Egham is 40 minutes by train from central London by train, where students have access to University of London facilities, including Senate House Library, as well as our campus in the heart of Bloomsbury.

Founder's Building

You can't miss the spectacular Grade I-listed Founder's Building at the heart of campus. It's where our first students lived and studied and you could follow in their footsteps if you choose it as your accommodation. It's also used for lectures and has a café, dining hall and the GP surgery, as well as a beautiful chapel and Picture Gallery with a famous collection of Victorian art.

You may also spot it popping up on the big and small screen as we're regularly used as a film location! Recent shows to feature us include psychological thriller *You*, the Bollywood film *Judwaa 2* and BBC's *Silent Witness*.

HOW TO APPLY

Starting the process

1

Find out everything you can about the courses and universities you're interested in. You'll need to apply via UCAS (Universities and Colleges Admissions Service) and can start your application from May 2025.

There's lots of support and advice on writing a personal statement on our website.

Apply online

2

Submit your application on the UCAS website from September 2025.

If you're in school or college, you'll need their 'buzzword'. If not, you can apply as an individual.

Royal Holloway's code is **R72**. You can find the code for your chosen degree on the UCAS website, where all our undergraduate courses are listed. Application deadline: 14 January 2026.

What happens next?

3

We'll receive your application from UCAS and will make a decision on whether to make you an offer. You'll hear from us within two to four weeks of us getting your application.

No offers? Don't worry, there's still time

4

If you used all five choices but didn't get any offers, you can use UCAS Extra from 26 February 2026, which lets you add another choice. Visit ucas.com for further information and deadlines.

Decision time

5

Once you've received your offers, you'll need to make a firm and insurance choice on the UCAS website.

Unless you already have your exam results, your offer from Royal Holloway will be conditional so you'll need to wait until your results before your place is confirmed.

Apply for accommodation

6

Once you've made us your firm choice, you'll be able to apply for accommodation in early summer 2026. You'll be able to self-select your exact room and first years who apply by our deadline are guaranteed an offer of a place in halls.

Final application deadline: 30 June 2026

7

This is the latest date you can submit a UCAS application for consideration by your five choices.

UCAS Extra closes: 4 July 2026

8

After this date, you can only apply via Clearing, once you have your results.

Early Clearing from 5 July 2026

9

If you've already got your results then you can start applying through Clearing from this point. Visit our website for more information.

Results day: 13 August 2026

10

If you're not holding any offers, or have changed your mind about your original choice, you can still apply to Royal Holloway through Clearing once you have your results. Check our website for all the details you'll need to join us through Clearing.

Finally ... Welcome!

Arrive at Royal Holloway from 21 September 2026 ready for the first day of Welcome Week!

FUNDING

“The scholarship has given me a big incentive to focus on my studies so I can go on to achieve my goals. It’s great knowing my hard work has been recognised.”

Allison, BSc Biomedical Sciences
Royal Holloway scholar

Part-time jobs are easy to find here, perhaps at one of our on-campus cafés or bars, or in the local area – maybe you’ll end up running the rides at Thorpe Park? Don’t forget to check if you’re eligible to apply for a scholarship too, to receive a cash award or money off your tuition fees. Automatic bursaries are available if you’re from a lower-income background or a care leaver.

royalholloway.ac.uk/scholarships

This guide was published in February 2025 and the information given was correct at that time. It is intended primarily for those considering admission to Royal Holloway as undergraduate students in 2026.

As described in our terms and conditions (found at royalholloway.ac.uk/admissions-terms-and-conditions), occasionally it may be necessary for the University to make changes to the information stated here including to vary the content and delivery of our courses, after this

FUNDING

There’s lots of ways to help fund your time at university, from loans to part-time jobs to bursaries and scholarships. You’ll need to think about your tuition fees (check our website for the latest information) along with other costs like accommodation, travel, food and social activities. Help is available when you get here from our financial wellbeing advisors. They’re on hand to support with budgeting and help you tackle any money worries.

guide is published. The University endeavours to keep such changes to a minimum, but all applicants are advised to visit royalholloway.ac.uk/prospectus-updates for any changes before making an application.

The text of this prospectus can be made available in alternative formats.
